There are no fewer than four climbing guides for Thailand of which I am aware. Sirichai Pongsopon's "Thailand Rock Climbing Guide Book" (2005), Wee Changruea/Elke Schmitz's "Rock Climbing in Thailand" (3rd ed, Dec 2005), the King Climber's guidebook (not certain the date on this one), and, of course, Sam Lightner, Jr.'s "Thailand: A Climbing Guide" (2005). Of all these guidebooks, Sam's guide is by far the thickest, weighing in at nearly 340 pages. Wee's/Elke's and Sirichai's come in in the mid-200s (the King Climber guidebook I opted not to pick up because it was my understanding from a number of other climbers that it was essentially a direct copy of an earlier edition of Wee's/Elke's, errors and all - so I have no hard supporting data for comparisons as with the other three; besides, I only had only so many bahts with which to buy guidebooks!). Sirichai's black and red-like photo cover guide cuts right to the point: after about 20 pages of "fluff", his book breaks right into topos and listings of routes. There are no route descriptions, however, anywhere. If you come to a tricky spot, you'll have to puzzle it out for yourself (and just go for the next bolt/sling). He does include some notes about rebolting of routes when and where known (at the time of his writing). Wee's and Elke's black cover guide has a bit more up-front fluff for the traveling climber: about 40 pages worth. But from there the guide dives straight into topos and route listings, with a

few routes having brief notes. The book is also sprinkled with a few more fluff pages and advertisements in the routes section. Sam's book has a bright, spring/aqua-green cover, with a photo of a climber on a route in Dum's Kitchen.
