If there is the one type of RPG book that nobody ever has enough of, it's the monster books !

Bestiary 2 for Pathfinder RPG was a no-brainer, so here it is.===PRESENTATION===A solid sewn hardcover book with over 320 pages in full color. The artwork is even better than in the first Bestiary.

This is perhaps the prettiest monster book in d20 history. There are several navigational aids, including indexes and CR tables. The book is a pleasure to look at and

use.===CONTENT===Bestiary 2 was certainly a challenge to put together. The first one was rather easy - update as many 3.5 SRD monsters as possible, throw in some sprinkling of retro and

Pathfinder critters, voila. Bestiary 2 has set out to meet several ambitious goals:1. Updating the leftover SRD monsters. Most of them are in Bestiary 2 - Gray Render, Rast, Tendriculous and several more. A few (Tojanida, Delver) had the dubious honor of being featured in Pathfinder

Campaign Setting (Chronicles): Misfit Monsters Redeemed instead.2. Presenting as many monsters from Pathfinder Adventure Path and other 3.5 Pathfinder sources as possible. In general, most of the beasties from the first three APs and a few from Legacy of Fire are in Bestiary 2 (including such Paizo staples as Rune Giants, Pugwampis and Lamia Matriarchs).3. Outsiders. Beings from the great beyond are the main theme of the book, with roughly 1/3 of the monsters coming from the many corners of the multiverse. First off, the leftover 3.5 outsiders are back (hello, Inevitables).
