Synopsis

David McBain can do the impossible with one hand tied behind his back...But miracles take him a wee bit longer. When retired Army Captain Kenzie Wallis-Manning receives a mysterious package containing an emerald brooch, she has no idea how life-altering the Gaelic inscription is until she's catapulted back in time to England in May of 1944. Her disappearance sends David McBain to the past to find her and bring her back to the future. The miracle-working David just might have lost his touch when a series of miscalculations lead them into even greater danger, creating havoc and peril for the time travelers. The mission proves even more dangerous when he is pitted against the best interests of his country. Can these two soldiers find their way back to the future before they lose their hearts and more in the most difficult battle of their lives.

Customer Reviews

I received this book pre-publication, with no compensation, for an honest review..and I've read it 3 times. I tried to keep out spoilers. I liked this as much as I did Sapphire because of the history and active storyline. Kenzie Wallis-Manning (U.S. Army-Intelligence retired) returns to her London flat, where she is doing her thesis on Winston Churchill, to be greeted by the postman with a package for her and a call/lecture from her alcoholic father, who continues to live in the regimented world of an Army officer and expects her to do the same. All she wants from him is his love or, at the very least, acknowledgment of pride in her accomplishments. She leads a solitary life with only PTSD as her companion. Eventually she opens the box to find an emerald brooch. A touch of the clasp and it opens to reveal a Gaelic incantation which, like her predecessors takes her into the fog and leaves her in war torn London a fortnight before D-day. With her military training she gets along with the help of Molly whom she met while looking for some light and information (like what is the date). In Scotland, her brother is fed up with the police and calls friend and mystery novelist David McBain for help. He and fellow time traveler (The Sapphire Brooch) Jack Mallory soon learn of the existence of yet another jeweled brooch and they research and use one of the other brooch's to go to WW-I London. The crafting of how this came about is genius. Meanwhile, Kenzie uses her intelligence expertise to go work at the top secret Bletchley Park, home of Turing's code breaking center.
