Hidden Secrets

Synopsis

Kim Brewster's ill-fated marriage was annulled so quickly that she thought she could keep the whole thing a secret until she found out she was pregnant. But before her confession can blow a hole in the seemingly perfect lives of the Brewster women, her great-grandmother, Hannah, drops a bomb of her own. She's selling her hotel and moving to a farm in Oklahoma and all the Brewsters are coming with her. Kim is sure her grandmother, Karen, and mother, Sue, won't go along with the plan, but Hannah can be very convincing. Soon the women are working the farm, selling their wares from a roadside stand, and finally feeling like a family. And as the Brewster women's lives take shape in ways they never expected, Kim may have found another shot at love. Luke thought he'd washed his hands of women, but when he stops by the vegetable stand and meets Kim, he's instantly smitten. To find love, though, they'll both have to dig past their hidden secrets.

Customer Reviews

Carolyn Brown is one of my all time top ten favorite authors. When you read one of her books you'll not be able to put it down. Her characters are always so believable. She writes about things that you can relate too, always. These stories might not be your every day Cinderella type stories like most

romances out there on the shelves today. But....I can guarantee you that they will always be about the more believable type situations, situations that most of us can relate to in the real world. What I like the most about her books, is that her stories always seem to have very strong willed women. Women who don't let any man what-so-ever, run rim shot over them no matter how macho those men might be. That doesn't mean there isn't some really hot romances going on in her stories, because there is always a very hot steamy romance going on in every one of her stories, always!! In this book starts out with four generations of women, heading out together on a journey that will end up changing all of their lives in one way or another.. All of them for one reason or another, are all far from being happy. Sure...they might be going through the motions of everyday life, but none of them are really living. Each and every one of them is hiding their own personal secrets from all the other family members. Hannah is the 80 year old monarch of the family, who owns a whole chain of up scale hotels and B&B's. One day she is notified that her cousin & best friend, Norma has suddenly died and left her everything she owned in a small town in Oklahoma. Among those many possessions Norma had left to Hannah, is a farm that had been in Norma's family for many, many generations. It was also where she'd first met Norma, and where her own hidden secret began.
