Customer Reviews

I have read several books about Karma, and this volume is the most concise, and clearly written karma volume that I have ever had the pleasure to read. My ONE complaint with this volume is that the author tells you it is possible to change your future; but does not tell you how to change the future. You change the future by changing how you think and react mentally (consciously and subconsciously) and in the way you speak (affecting the world around you). I want to quote a few portions of the book; followed by my comments. Page 10: "Astrologers with notable exceptions, all too often reinforce the idea that we have an unalterable destiny, It is mapped out at the moment of birth in the alignment of planets in different constellations and there is nothing we can do about it."

_| You CAN change your future; because I have done it many times ago. I was supposed to die from a terminal disease 23 years ago. Page 12: "No matter how accurate a reading, the wrong interpretation can do more harm than good." _| This certainly is true. This book has 100 quotes; that you are supposed to open at random and read than study on the quote. I have quoted some of them below for your convenience.----- Environment Environment is not the ultimate factor in determining our destiny. Too many people have defied their environment, upbringing and cultural background and achieved greatness for us to believe otherwise.----- Regret Instead of regretting the past, create the future----- Transmuting Negativity If you have a pattern of negative thinking, introduce a new

positive thought to transmute it. If you expect failure, visualize success; If you expect illness, visualize health; and so on.
