Codependency Recovery: Wounded Souls Dancing In The Light

Synopsis

This was a process level - how to - book about the inner child healing approach discovered by Robert Burney in his recovery from codependency. It is a follow up to his book Codependence: The Dance of Wounded Souls which has been described as one of the most transformational books of our times - and as taking inner child healing to a new level. This compilation of writings from his website is about healing. It contains tools, techniques, and insights into the healing process that work in a powerful, effective way to change the quality of the individuals life experience for the better. They work because they help the individual to align with the way life really works instead of expecting it to be something which it is not. The approach to healing detailed on these pages is one which has evolved in his personal recovery since January 3, 1984 and in his counseling practice since 1990. He was guided to discover and develop an approach to inner child healing that offers a powerful, life-changing formula for integrating Love, Spiritual Truth, and intellectual knowledge of healthy behavior into one's emotional experience of life - a blueprint for individuals to transform their core relationship with self and life. The approach to inner child / emotional healing shared herein is the missing piece - the missing perspective - of the puzzle of life that so many people have been seeking. This formula is the key to learning how to be more Loving to your self - and to turning life into an adventure to be experienced instead of an ordeal of suffering to be endured. It is possible to feel the feelings without being the victim of them or victimizing others with them. It is possible to change the way you think so that your mind is no longer your worst enemy. It is possible to become empowered to have choices in life at the same time you are letting go of trying to be in control. Life can be an exciting, enjoyable adventure if you stop reacting to it out of your childhood emotional wounds and attitudes. The tools and techniques, insights and beliefs, set out in this book work. They work to support the idea that each and every one of us is Lovable and worthy. They work to help change life from an unbearable ordeal to a often enjoyable adventure. Try it - you might find it works for you also.

I bought both Roberts workbook & book. I didn't realize what coda nor acao was all about. I was a very injured adult child, that dealt with life as she was taught. Drinking & suicide. I had no more hope. Robert introduced these to me ... Reading his book & taking it a step further to join these 12 steps programs has changed the quality of my life, in fact saved my life. Thank you Robert for hope again

There is only one way the world can possibly heal and that is if every individual were to truly understand the dynamic and complexity of our own inner child and how this Phenomenon controls the direction of our lives. This book gives us as individuals the opportunity to know ourselves like never before. Priceless.

I was already a keen follower of Robert through his 'Wounded Souls' book and when this one arrived, I couldn't put it down. After reading this, I connected with Robert on Facebook and also spent 6 months in skype therapy with him. All were very worthwhile.

Robert really walks the talk, and shares with us all so generously, to enable us to take the steps which help us grow. I am so grateful to him, may his work continue long and successfully in the future

Robert Burney continues to provide outstanding guidance for those recovering from Codependence.

His perspective is real, human and totally accurate. His approach to doing the healing works and makes sense. I fully endorse his work.

Excellent book, very easy to understand, would definitely recommend it to anyone who has the similar issues. I could also recommend his website, it entwines with his book as well.

Excellent work book for working in the co-occurring field. I have used this book for at least three clients who loved the book!

Best book I've read on co-dependency as Robert Burney introduces the spiritual aspect, teaching us to love and respect ourselves as no other book I've read.
