God Less America: Real Stories From The Front Lines Of The Attack On Traditional Values

Synopsis

Pay attention, people of faith. Dark clouds are gathering. The winds of intolerance are blowing. There's a great storm approaching. American Christians are facing uncertain times. Our nation's values are under assault. Religious liberty has been undermined. We live in a day when right is now wrong and wrong is now right. The vicious leftwing attack against the recent traditional marriage stance of Chick-fil-A should serve as a wakeup call to people of faith. It's not about a chicken sandwich. It's about religious liberty. It's about free speech. It's about the future of our nation. As a reporter covering the culture war for FOX News, Todd Starnes is on the front lines of these attacks against traditional values. In *God Less America*, he uses both recent news stories and compelling interviews with today's top conservative leaders to bring to light what is happening across our country. In his award-winning, satire-meets-serious writing style, he strikes an important blow in today's culture wars.

Paul Revere warned the colonists, "The British are coming!", and they rose together in defense of liberty. In his book Todd Starnes of Fox News has sounded a sober warning of a different and darker nature. His warning, through numerous and recent examples, could be phrased "The Barbarians are coming!" The rise of anti-Christian cultural momentum is traced by Todd through education, media, social institutions, the military, business and politics. For example, through selective application of so called non-discrimination policies, schools like Rollins College in Florida violated the rights of

some Christian students who were hosting an Inter varsity Christian Fellowship Bible study in their dorm. This ministry with decades of great campus presence was de-recognized as an official campus organization for refusing to comply with this unreasonable and coercive policy, that would require the students to violate their conscience by allowing any student with any set of values the opportunity to lead in their organization. By this reasoning, a student with Nazi beliefs would be allowed to be a leader in the Jewish students league, or a Muslim extremist who believes in killing homosexuals would be allowed to join the campus LGBT club and give a talk at one of their parties on the best methods of decapitating them. The hypocrisy in higher education is further exposed in the ridiculous accommodations that are being made for Muslims on campuses around the country. The University of Michigan-Dearborn installed foot washing stations in the public restrooms for Muslims at a cost of \$25,000. These well intended efforts to appease our sworn enemies are also being funded by public tax dollars for public places.
