## Customer Reviews

I received a free copy of this book in exchange for an honest review. First off, I was very sad to hear that the Sinful Serenade Series was coming to a close but then I perked up when I heard that the "gang" would be making an appearance throughout the spin-off series, Dangerous Noise, that

Crystal is writing! Usually by the time a series gets to a fifth book of a series, the story-lines have all been played out but I have to congratulate Crystal on making book 5 just as good, if not better, than any of the four previous books! As always, the story-line was amazing and the story flowed beautifully! Not once did the story stall out or ever feel forced! Also nothing felt repetitious or stall. I love that this book brought us up to date on each character but did so in way that was not boring or left us feeling like it was all stuff we already knew or have heard before! with this book we got to see the characters find their footing in life and you left us knowing that they had their HEA in their sights and all they had to do was make a grab for it. Also, I have to say, you amaze me with how you come up with dialog for Pete! As much sex and smut that he has talked throughout the first four books, where in the hell did you come up with everything for this book? I never knew there was so many different ways to talk about sex, but you sure found it! I love how well developed your characters are. Just when you think that you know everything there is to know about a certain character or a certain couple, you give us another facet to them! And because of this gift that you have, not one part of this entire series, was ever boring. Never did I once feel like I needed to skip ahead because it was something that I had read in another book.
